“Egg Hunt” 2016

WOW...32 years ago we invited the children of the community to a small “EGG HUNT” to show our gratitude to Great Falls for making us feel so welcome when we decided to open our doors in the Village Centre. Look where we are now!!! 31 amazing years later and eventually with the wonderful partnership of the Optimist Club and the support of many many local businesses, friends and neighbors, this event has become a tradition of this community.

We feel honored and proud to be able to bring this to the families of Great Falls and we hope that through this festival we are able to show our tremendous gratitude and appreciation for your continued support of our family and our business. We would not be here were it not for your loyal patronage. Enjoy the day and Happy Hunting!

**Just as a reminder, 100% of the ticket sale proceeds are collected by, and benefit the Great Falls Optimist Club Youth Fund and stay in Great Falls too!

Birthstones

January - Garnet

Garnet, the birthstone for January, signifies eternal friendship and trust and is the perfect gift for a friend. Garnet, derived from the word granatum, means seed, and is called so because of the gemstone's resemblance to a pomegranate seed. References to the gemstone dates back to 3100 B.C., when the Egyptians used garnets as inlays jewelry. Garnet is the name of a group of minerals that comes in a rainbow of colors, from the deep red of the pyrope garnet to the vibrant green of tsavorites.

February - Amethyst

Amethyst, the gemstone believed by ancient Greeks and Romans to ward off the intoxicating powers of Bacchus, also is said to keep the wearer clear-headed and quick-witted. Throughout history, the gemstone has been associated with many myths, legends, religions, and numerous cultures. English regalia were even decorated with amethysts during the Middle Ages to symbolize royalty. It has been associated with many myths, legends, religions, and numerous cultures. Amethyst is purple quartz, a beautiful blend of violet and red that can found in every corner of the earth. Historically, the finest amethyst were found in Russia and were featured in much royal European jewelry.

March - Aquamarine

The two birthstones for March are aquamarine and bloodstone. The name aquamarine is derived from the Latin word aqua, meaning water, and marina, meaning the sea. This gemstone was believed to protect sailors, as well as to guarantee a safe voyage. The serene color of aquamarine is said to cool the temper, allowing the wearer to remain calm and levelheaded. Its pale, cool color beautifully complements spring and summer wardrobes. Aquamarine is most often light in tone and ranges from greenish blue to blue-green; the color usually is more intense in larger stones.

The second birthstone for March is bloodstone, a dark-green jasper flecked with vivid red spots of iron oxide. This ancient stone was used by the Babylonians to make seals and amulets and was believed to have healing powers - especially for blood disorders. It is sometimes called the martyr's stone as legend tells that it was created when drops of Christ's blood stained some jasper at the foot of the cross.

April - Diamond

As the April birthstone, diamonds are the ideal gift for a loved one. And now you have more choices than ever. Get creative and give the ultimate gift of beauty: a fancy-color diamond. Fancy-color diamonds are natural, rare and truly exotic gem of the earth. Diamonds in hues of yellow, red, pink, blue, and green range in intensity from faint to vivid

and generally the more saturated the color, the higher the value. In fact, diamonds sparkling with intense color are rare and may be priced higher than a colorless diamond of equal size. Because fancy-color diamonds are very desirable, color is sometimes introduced in a laboratory.

May - Emerald

As the birthstone for May, the emerald, a symbol of rebirth, is believed to grant the owner foresight, good fortune, and youth. Emerald, derived from the word smaragdus, meaning green in Greek, was mined in Egypt as early as 330 B.C. Today, most of the world's emeralds are mined in Colombia, Brazil, Afghanistan, and Zambia.

June - Pearl and Alexandrite

June counts three gems as birthstones, pearl, Alexandrite, and moonstone.

Historically, pearls have been used as an adornment for centuries. They were one of the favorite gem materials of the Roman Empire; later in Tudor England, the 1500s were known as the pearl age. Pearls are unique as they are the only gems from living sea creatures and require no faceting or polishing to reveal their natural beauty.

Alexandrite

A relatively modern gem, Alexandrite, was first discovered in Russia in 1831 during the reign of its namesake, Czar Alexander II, and is an extremely rare chrysoberyl with chameleon-like qualities. Its color is a lovely green in both daylight and fluorescent light; it changes color to a purplish red in incandescent light.

Moonstone

The third birthstone for June is the Moonstone. It was given its name by the Roman natural historian Pliny, who wrote that moonstone's appearance altered with the phases of the moon - a belief that held until well after the sixteenth century. A phenomenal gemstone, moonstones show a floating play of light (called adularescence) and sometimes show either a multirayed star or a cat's eye. Considered a sacred stone in India, moonstones often are displayed on a background of yellow (a sacred color) and are believed to encapsulate within the stone a spirit whose purpose is to bring good fortune. Part of the family of minerals called feldspar, moonstone occurs in many igneous and metamorphic rocks and comes in a variety of colors such as green, blue, peach, and champagne.

July - Ruby

There's no better way to demonstrate your love than by giving a ruby in celebration of a July birthday. Rubies arouse the senses, stir the imagi-

nation, and are said to guarantee health, wisdom, wealth and success in love. Ruby is a variety of the gems species corundum. It is harder than any natural gemstone except diamond, which means a ruby is durable enough for everyday wear. Fine-quality ruby is extremely rare, and the color of the gem is most important to its value.

August - Peridot

Two birthstones are available for August birthdays: Peridot and Sardonyx.

Peridot is said to host magical powers and healing properties to protect against nightmares and to bring the wearer power, influence, and a wonderful year. As peridot is a gemstone that forms deep inside the Earth and brought to the surface by volcanoes, in Hawaii, peridot symbolizes the tears of Pele, the goddess of fire and volcanoes. Today, most of the peridot supply comes from Arizona; other sources are China, Myanmar, and Pakistan.

Sardonyx

Sardonyx is a form of onyx and is recognized by its layers of reddish brown and white banding. It was popular with the ancient Greeks and Romans who carried into battle talismans of sardonyx engraved with images of heroes such as Mars or Hercules, believing that this would bring courage and victory. Because of its attractive banding, sardonyx has long been used to fashion cameos (carved raised figures) and intaglios (the reverse of cameos). This gemstone is found throughout the world.

Birthstones

FROM PAGES

According to folklore, will protect your loved ones from envy and harm. Medieval clergy wore sapphires to symbolize heaven, while commoners thought the gem attracted heavenly blessings. Blue sapphires range from very light to very dark greenish or violetish blue, as well as various shades of pure blue. The most prized colors are a medium to medium dark blue or slightly violetish blue.

October - Tourmaline and Opal

October is another month with two birthstone choices - Tourmaline and Opal.

Tourmaline has become a favorite gemstone among jewelry designer, and gem collectors the world over. Since it is available in a wide variety of colors, it is ideally suited to almost anyone's taste.

Tourmaline also is known for displaying several colors in the same gemstone. These bi-color or tri-color gems are formed in many combinations; gemstones with clear color distinctions are highly prized. One multi-color variety is known as watermelon tourmaline, and features green, pink, and white colors bands; to resemble its namesake, the gemstone is cut into thin slices having a pink center, white ring, and green edge.

The name opal derives from the Greek Opallos, meaning "to see a change (of color)." Opals range in color from milky white to black with flashes of yellow, orange, green, red, and blue. An opal's beauty is the product of contrast between its color play and its background. Opal is a formation of non-crystalline silica gel that seeped into crevices in the sedimentary strata. Through time and nature's heating and molding processes, the gel hardened into the form of opals.

November - Topaz and Citrine

Two gems are appropriate for November birthdays - Topaz and Citrine.

Topaz is a gemstone available in a rich rainbow of colors. Prized for several thousand years in antiquity, all yellow gems in antiquity were called topaz. Often confused with citrine quartz (yellow) and smoky quartz (brown), quartz and topaz are separate and unrelated mineral species. The most prized color of topaz is called Imperial topaz after the Russian Czars of the 1800s and features a magnificent orange body color with pinkish undertones.

Citrine, the other birthstone for November is known as the "healing quartz". This golden gemstone is said to support vitality and health while encouraging and guiding hope, energy and warmth within the wearer. Citrine can be found in a variety of shades ranging from pastel yellow to dark brownish orange. It is one of the most affordable of gemstones and plentiful in nature.

December - Tanzanite, Zircon, and Turquoise

The three birthstones associated with December are Tanzanite, Zircon, and Turquoise.

Discovered in the late 1960s in Tanzania, and found exclusively in this tiny area of the world, tanzanite exhibits a rich violet-blue color for which the gemstone is treasured; often it is heat-treated to achieve this color. Colors range from blue to purple, and tanzanites that are medium dark in tone, vivid in saturation, and slightly violet blue command premium prices.

Derived from the Arabic words zar and gun, meaning gold and color, zircon is found in a wide range of colors such as: blue, yellow, orange, brown, green, colorless, and red (the most prized color). For many years colorless zircon was used to imitate diamonds. Folk wisdom grants zircon the power to relieve pain, whet the appetite, protect travelers from disease and injury, to ensure a warm welcome, and to prevent nightmares guaranteeing a deep, tranquil sleep.

The name turquoise, from the French expression Pierre tourques or Turkish stone, originated in the thirteenth century and describes one of the oldest known gemstones. Turquoise varies in color from greenish blue, through robin's egg-blue, to sky blue shades and its transparency ranges from translucent to opaque.

remain in Great Falls, he said, to help needy children. "Sometimes we'll have a scholarship or help purchase band instruments," she said.

❖A veteran of several Children's Festivals, Linda said her favorite part of the day is "seeing the smiles on the faces of the children. It's absolutely beautiful.

Plus, this is an occasion where parents attend with their children, they don't just send them along alone," he said.

❖Linda thanks the many volunteers from Great Falls who come out every year to help with the festivities. "They're the ones who make it a success. Everyone thoroughly enjoys it," he said.

❖The Festival began as a way for Adeler Jewelers to thank the community for its support, said Wendy

Adeler Hall, whose father began the celebration over 30 years ago.

❖"He's very community-minded and always wanted to do something like this," she said.

❖During the course of the day, there will be an ongoing egg hunt for children under the 3, she said, with older children having a different area to hunt in to allow for a more equitable outing.

❖"WE HAVE AN age limit and two separate areas so that shy children can have a fair chance," she said. "Three- and 4- year-olds can have one parent with them in the egg hunt area, but ages 5 through 10 are on their own."

❖The eggs all contain candy, but some of the 6,000 to 8,000 eggs will contain gems, donated by Adeler's Jewelers.

❖"We usually hide about \$5,000 of gems mixed in," Adeler said.

"Typically, the gems include amethyst, garnet, peridot, blue topaz, citrine, some rubies and emeralds, all the typical birthstones," she said.

❖In addition, local vendors have sponsored rides, like a moon bounce, a mini Ferris wheel and a tilt-a-whirl for the children to enjoy, she said.

❖"The \$10.00 per child admission gives each child a bracelet that's good for unlimited rides," she said. "We don't charge the parents admission, but they're free to make donations."

❖The event will take place rain or shine, Adeler said, and parents can call 703-759-4076 starting at 9 a.m. that day if the weather is bad to find out when the event will start. Tickets will be available beginning at 11 a.m. in the Village Centre.
